Documentation of Age

Provide a copy of the original or certified transcript of a birth certificate or record of baptism (including an original or certified transcript of a foreign birth certificate or record of baptism) giving the date of birth; **or** Passport (including foreign passport) giving the date of birth. Where such documentation is not available, other documents may be considered, including a school photo identification with date of birth, a consulate identification card, a military dependent identification card, documents issued by Federal State or local agencies (e.g., local social service agency, Federal Office of Refugee Resettlement); court orders or other court-issued documents, Native American tribal documents, or records from non-profit international aid agencies and voluntary agencies.

<u>Parent(s)/Guardian(s)</u> shall provide proper proof of parental relationship: Provide guardianship papers or a custodial affidavit for students not living with parents. If divorced or separated, provide judgment of divorce. For all others, please contact the Registrar for additional information.

<u>Health Examination</u> – Provide proof of a satisfactory health examination conducted by a physician, physician assistant, or nurse practitioner licensed in New York, upon first entering the district, and upon entering pre-kindergarten or kindergarten, and the first, third, fifth, seventh, ninth, and eleventh grades. To be acceptable, such examination must have been conducted no more than 12 months before the first day of school. **Dental Health Certificates** should be submitted upon entry into the District, in Kindergarten, and grades 2, 4, 7, and 10.

<u>Immunizations</u> — Proof of immunization in accordance with the age-appropriate schedule recommended by the Advisory Committee for Immunization Practice (ACIP). The school nurse will review and approve immunization records prior to enrollment of new students. No child may be admitted to, or allowed to attend, school for more than fourteen (14) days without acceptable evidence of immunization. Proof of immunization must be provided no later than fourteen (14) days upon enrollment of the child in the School District. This fourteen (14) day period may be extended, on a case-by-case basis, to thirty (30) days when a student has transferred from another state or country.

<u>Administration of Medication at School</u> – If it is necessary for a student to take medication in school, both the parent and physician must sign a written request which specifies the diagnosis, name of medication, dosage, frequency to be given in school, and possible side effects. These forms can be obtained in the Health Office. Medications should be delivered by the parent in the original container to the School Nurse. This includes over the counter medication.

<u>Students taking Prescribed Medication at Home</u> – The School District also requires that a parent notify the Health Office any time a student is on prescription medication, even if the medication is only being taken at home. It is beneficial to the School District to know the name of the medication in the event that the student suffers from side effects during the school day.

For additional information or to make a referral to the Committee on Special Education, contact Lynette Abruzzo, Director of Special Services or Nicole Friedman, Assistant Director of Special Services, at 516-861-3200. More detailed information on this process is available in A Parent's Guide to Special Education, which is published on the New York State Education Department's website in English and Spanish.
